

Plus-point product diversity

Particularly light tail lift for the transporter class with 750 kg lifting capacity and only 168 kg own weight.

Sörensen

The tail lift experts

The super light: X1A 750SL

Standard tail lift with 750 kg lifting capacity

The best solution for your loading capacity:
The standard tail lift X1A 750SL with 750 kg lifting capacity and only 168 kg own weight.

The new generation for tail lift control: Super flat main control box, which can be mounted also directly on the vehicle wall, sturdy and weatherproof.

Weighty advantages with our super light:

- + Weight reduction to only 168 kg with 1.450 mm platform height, maximum stability and unmatched power reserves.
- + Extremely flat main control box (5 mm) permits ergonomical handling of the tail lift, because of versatile installation possibilities (e.g. at the body wall)
- + Less components make it easy to repair and reduce life cycle costs
- + Spare wheel doesn't normally need relocation
- + Simple and easy handling
- + Larger payload through lower own weight.
- + Brackets for all common light vehicles

Plus-point product diversity

Particularly light tail lift for the transporter class with 750 kg lifting capacity and only 168 kg own weight.

Product information

+ Mainframe

Black KTL coated (RAL 9005), maintenance-free bushings, pre drilled and installation ready brackets for direct installation on the chassis frame, rear bumper (EC approved)

+ Lifting capacity / load distance

750 kg at 600 mm

+ Lifting arm lengths

515 mm, 575 mm and 650 mm

+ Lifting height

Max. 920 mm at 515 mm lifting arm length
Max. 1.000 mm at 575 mm lifting arm length
Max. 1.100 mm at 650 mm lifting arm length

+ Platform

Aluminum, smooth back for optimal advertising, platform rolls standard

No fat - muscles only: few construction parts secure minimum life cycle costs.

Option: Towing ball assembly, quick and easy installation, retrofittable.

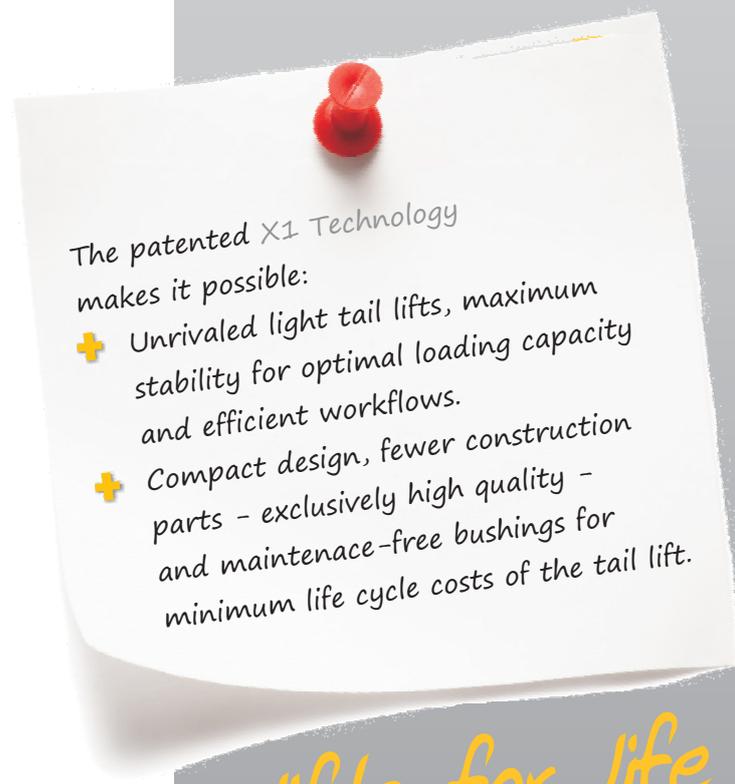

Standard equipment

- + Comfortable, only 5 mm flat main control box
- + 2 button hand-held control with wanderlead
- + Installation ready steel mainframe, black coated, with brackets
- + SoftControl for soft tilt-up and tilt-down of the platform
- + Quiet running power pack with thermo switch
- + Automatically tilt-up and tilt-down at the surface
- + Platform rolls
- + Maintenance-free bushings
- + Warning flags
- + 24 months warranty

TYPE:	X1A 750SL	
	mm	kg
Platformheight / weight:	1.450	168
	1.600	173

Accessories (in extracts)

- + Warranty extension from 24 to 36 months
- + 3 button hand-held control with wanderlead
- + Flat 2 button safety foot controls on the platform
- + Cross milling on the platform
- + Cart stops
- + Towing ball assembly (to be bolted)
- + Warning flashlights on platform corners
- + Sealing kit
- + Platform lock

The patented X1 Technology makes it possible:

- + Unrivaled light tail lifts, maximum stability for optimal loading capacity and efficient workflows.
- + Compact design, fewer construction parts - exclusively high quality - and maintenance-free bushings for minimum life cycle costs of the tail lift.
