

## Plus-point product diversity

*Payload-optimized tail lift with a folding platform for vans with a capacity up to 600 kg.*

# Sörensen

The tail lift experts

## Our versatile model: X1A 600F

Standard tail lift with a capacity up to 600 kg

Free access to the payload:  
Classic loading and unloading of the vehicle is possible without using the tail lift.

A strong partner for heavy loads :  
Heavy and bulky goods are loaded and unloaded with this tail lift offering a capacity up to 600 kg.

## Small lift conceals bigger one:

- + Folding payload-optimized tail lift with free access to the right rear door
- + Extremely flat main control box (5 mm) permits ergonomical handling of the tail lift, because of versatile installation possibilities (e.g. inside the right rear door or at the body wall)
- + Best ground clearance
- + Very fast and straightforward assembly
- + Very quick and simple installation of the towing ball (even after the tail lift has been mounted)
- + Bridge plates standard
- + Less components make it easy to repair and reduce life-cycle-costs
- + There is no need for an aiming position on the vehicle body

# Plus-point product diversity

Payload-optimized tail lift with a folding platform for vans with a capacity up to 600 kg.

## Product information

### + Lifting mechanism

Black KTL coated (RAL 9005), maintenance-free bushings, pre-drilled assembly plates to bolt the lift onto the vehicle frame crash bar in one piece (tested by TÜV and EU-approved), electrical interface according to VEHH norms

### + Capacity / load distance

600 kg at 450 mm

### + Lifting arm lengths

430 mm, 450 mm and 515 mm

### + Platform

Aluminum, with ground rollers as standard

Options: step and towing ball coupling assembly, fast and straightforward assembly, can be retro fitted.

Controlled by 5 mm flat main control box, versatile installation possibilities.

## Standard equipment

- + Comfortable, only 5 mm flat main control box
- + Bridge plates
- + Installation brackets for actual type of vehicle
- + SoftControl for soft tilt-up and tilt-down of the platform
- + Quiet running power pack with thermo switch
- + Automatically tilt-up and tilt-down at the surface
- + Platform rolls
- + Maintenance-free bushings
- + Warning flashlights on platform corners
- + Warning flags
- + 24 months warranty

## Accessories (in extracts)

- + Warranty extension from 24 to 36 months
- + Cross milling on the platform
- + Licence plate light
- + Different types of cart stop
- + Bio-oil
- + Cabled remote control
- + Flat 2 button safety foot controls on the platform
- + Foodstep at optimal height
- + Towing ball coupling can be retro fitted  
(operating the tail lift with a mounted towing ball coupling is possible)

TYPE:	X1A 600F	
	mm	kg
Platform height / weight:	1.600	188
Additional weight for adapters:		
Ford, Iveco, Mercedes, Opel, Renault, VW		7
Citroen, Fiat, Peugeot		24
Towing ball coupling		16

The X1 Technology with pending patent makes it possible:

- + Tail lifts with unbeatable low weight, keeping maximum stability, for a real gain in payload.
- + Compact design, fewer components - all produced industrially - and maintenance-free bushings, for very low life-cycle-costs of the tail lift.
