

Plus-Point variety of products

Particularly robust tailgate for distribution vehicles:
The X1A 1501 with 1500 kg lifting capacity.

Particularly robust: X1A 1501

Standard-Tailgate with 1500 kg lifting capacity

The consequent development of our success models with robust advantages.

Particularly robust standard-tailgate X1A 1501 with 1500 kg lifting capacity for distribution vehicles.

Weighty advantages for your distribution:

- + Consequent weight reduction with the same stability and keeping the well-known benefit reserves.
- + SoftControl for soft tilt-up and tilt-down of the platform and SoftLanding for soundless and careful landing.
- + Reduced fuel consumption and less CO₂ - emission.
- + Cargo securing "Code XL" standard.
- + Rear bumper approval after 70/221/EWG.
- + Maintenance free bushings.
- + Up to 36 months warranty (optional).

The tail lift experts

Product information

- Mainframe**
Black coated (RAL 9005), maintenance free bushings, pre drilled and installation ready brackets for direct installation on the chassis frame, rear bumper (EC approved)
- Lifting arm length**
675 mm, 750 mm and 875 mm
- Loading height**
Max. 1200 mm at 675 mm lifting arm length
Max. 1300 mm at 750 mm lifting arm length
Max. 1430 mm at 875 mm lifting arm length
- Platform**
Aluminium, smooth back for optimal advertising, platform rolls standard
- Lifting capacity / loading distance**
1500 kg at 600 mm

Standard equipment

- Hand control, waterproof
- Flat 2 button safety foot controls on the platform
- Installation ready steel mainframe, black coated, with brackets
- SoftControl for soft tilt-up and tilt-down of the platform
- SoftLanding for soundless and careful landing
- Quiet running power pack with thermo switch
- Automatically tilt-up and tilt-down at the surface
- Electro hydraulic operation
- Maintenance free bushings
- Tilt function in all levels
- 24 months warranty

Accessories (in extracts)

- Extension of warranty to 36 months
- Different types of cart stop
- Battery box
- Cross milling of platform
- Charging cable for trailer
- Platform lock
- Key switch for operating
- Towing ball coupling can be retro fitted
- ExpressControl (simultaneously open- and lowering of the platform)

No fat - muscles only: Few construction parts secure minimum life cycle costs.

Towing ball coupling, quick and easy installation, retrofittable.

The patented X1 Technology makes it possible:

- Unrivaled light tailgates, maximum stability for optimal loading capacity and efficient workflows.
- Compact Design, fewer construction parts - exclusively high quality - and maintenance free bushings for minimum life cycle costs of the tailgate.
