PK CABLE LIFTS

RELIABLE

PK cable lifts for demountable platforms apply advanced technology to ensure reliable operation even in the toughest conditions. Designed and constructed with certified quality, this equipment maximises payload and functionality.

VERSATILE

PK cable lifts improve the utilisation rate of a vehicle by making it more adaptable. The ability to remove the upper body, e.g. for use with a fifth wheel coupling or gravel platform, also enables a wide range of haulage functions.

EASY TO USE

Functionalities designed for ease of operation and an ergonomic control solution ensure productive, efficient and safe working conditions for drivers.

EFFECTIVE

Two-speed control system, an automatic pull limiter, free fall, cable traction balancing and mechanical traction unit locking make for efficient and safe working.

FEATURES

- ◀ GEAR LENGTH OF UP TO 7,000 MM
- ◀ TIPPING AXIS WIDTH OF 1,640 MM
- ◀ MOUNTING HEIGHT OF 210/230 MM
- ◀ TIPPING ANGLE OF 50–55 °
- ◀ RECOMMENDED OIL FLOW OF 80 L/MIN

MODEL	LIFTING CAPACITY	WEIGHT/ KG	MOUNTING HEIGHT/ MM
PK-16	16 T	1 500	210
PK-20	20 T	1 600	210
PK-25	25 T	1 700	230
